

SQUEEZE: GETTING THE GRIP ON COCK RINGS

Cock rings have been making our intimate moments even more memorable for years. They have changed with our desires and now come in an assortment of options to meet our needs. Selecting a cock ring can seem a bit overwhelming. Don't worry, our guide will help you get a grip on cock rings and find the right ring for you.

Before selecting a ring, we recommend familiarizing yourself with yourself. And remember, personal lubricant always helps. We also advise not wearing cock rings for longer than 30 minutes at a time.

METAL:

Metal is our most basic cock ring option. These rings provide no flexibility. The rings come in four sizes, 1.25", 1.5", 1.75", and 2". Metal rings can be worn over just the base of the shaft or around the shaft and scrotum.

NICHEL: B/PA-01, B/PA-02, B/PA-03, B/PA-04, B/PA-16,
BLACK METAL: B/PA-41, B/PA-42, B/PA-43, B/PA-44

RUBBER & NITRILE: Rubber and nitrile rings are pliable and strong, yet provide minimal stretch. They come in 3 sizes and a variety of colors. Worn around the base of the shaft or around shaft and scrotum, they are very popular as replacement rings in harness play. Our nitrile line is our latex-free option.

RUBBER: B/PA-06 THRU B/PA-48, RUB-11
NITRILE: B/PA-51 THRU B/PA-78

DUAL RINGS:

For those who enjoy wearing multiple rings or like extra support, our dual rings come with a strap which goes around the scrotum and another ring that goes around the shaft. Dual rings come in metal, nitrile, or a combination of leather and rubber.

ELASTOMER:

Great for beginners. These rings are super stretchy, and will expand and contract with the body, keeping a snug fit. These range in colors and styles from basic to heavy-duty. Some include nubs and stubs for extra stimulation.

LEATHER:

Guys love our leather rings' adjustable snaps that allow for the perfect fit and provide a quick release after play. These rings come in an assortment of colors and styles including a vibe option for additional fun.

MULTI-SNAP:

Our 6- and 10-snap cock rings are the most adjustable and come equipped with snaps along the entire leather strap, which allows you to find your exact fit. This style is also a great way to determine your comfort level and begin your introduction to our CBT line.
